

## Superior Protection in all Weather Conditions

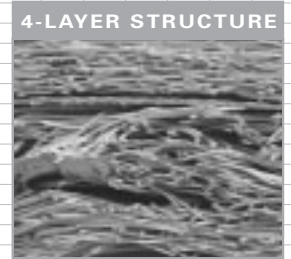

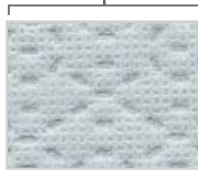

From Kimberly-Clark's proprietary Nonwoven film technologies: a water-resistant fabric that provides superior protection in all weather conditions without sacrificing the breathability your car needs under the cover.

- ▲ Excellent balance of water barrier and breathability for improved moisture management.

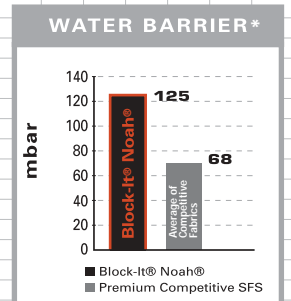

- ▲ Offers long-term protection against all conditions, including acid rain, industrial pollutants, tree sap and bird droppings.

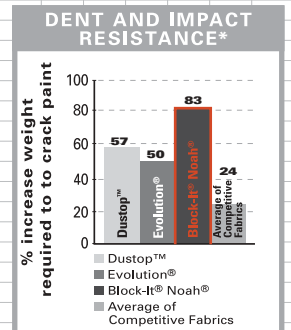

- ▲ Available in light gray

Cross-section of Block-It® Noah®

Block-It® Noah® Fabric has nearly twice the hydrohead vs. the average of competitive SFS structures tested.

Block-It® Noah® Fabric can withstand nearly four times the impact than the average of competitive fabrics tested.
